

Speed (km/h)	Minimum Distance (m)			
	Passing Sight Distance ¹	Stopping Sight Distance ²	Aborted Passing Maneuvers ³	
			APM-A	APM-B
50	155	80	130	110
60	175	100	170	130
70	205	120	205	150
80	245	150	245	170
90	280	170	280	190
100	320	200	320	205
110	360	220	360	225

1. *MUTCD*, Section 3B-5.
2. AASHTO Stopping Sight Distance; see Section 42-1.0.
3. Report No. FHWA RD-81-093, *No-Passing Zone Treatments for Special Geometrics and Traffic Operational Situations*.

Notes:

APM-A *is the distance for a vehicle which is aborting a pass to slow down, get behind the slower vehicle and, then, both vehicles coming to a stop. Both vehicles decelerate but at different rates.*

APM-B *is the distance for a vehicle which is aborting a pass to slow down and get behind the slower vehicle. The slower vehicle maintains a constant speed, and the passing vehicle decelerates to the speed of the slower vehicle.*

NO-PASSING ZONE DISTANCES
